(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

1. On May 19, 2006, a "Request to Correct Inventorship" pursuant to 37 C.F.R. § 1.48 was filed with the Office to add Marshall C. Ryan as an inventor to US Patent Application No. 10524086 (the "Application"). Ex. A. A declaration of inventorship signed by Mr. Ryan accompanied the Request to Correct Inventorship. Ex. A.
2. On or around February 21, 2007, a "Request to Delete Named Persons Who Are Not Inventors of the Invention Now Claimed" was filed with the Office, thus leaving Marshall C. Ryan as the sole named inventor on the Application. Ex. B.
3. On April 10, 2007, the Office issued a Notice of Allowance. Ex. C. The Notice of Allowability confirmed that the inventorship had been changed by the deletion of Jay D. Nord and Jeffrey K. Drogue and that Marshall C. Ryan was the sole named inventor on the application. Ex. C.
4. On July 9, 2007, the issue fees were paid. Ex. D.
5. On or around December 27, 2007, having not yet received a notice of grant of the patent application, I requested my paralegal, Ms. Cathryn J. Quinn, to telephone Examiner Maust to inquire as to when we could expect the Office to grant the patent since the issuance fees had been paid over four (4) months ago.
6. Ms. Quinn informed me that Examiner Maust advised her that the delay in the granting of the patent was due to the fact that Mr. Ryan's mailing address was not identified on the declaration filed by Mr. Ryan on May 19, 2006. Ms. Quinn further informed me that Examiner Maust suggested that we file an Application Data Sheet (ADS) with Mr. Ryan's mailing address.
7. On December 27, 2007, as suggested by Examiner Maust, an ADS identifying Mr. Ryan's mailing address was filed with the Office. Ex. E. As suggested by Examiner Maust, the "Remarks" section of the transmittal accompanying the ADS clearly indicates that the ADS is being filed to provide the mailing address of Inventor Ryan omitted from his declaration filed May 19, 2006. Ex. E.

[CONTINUED FROM PREVIOUS PAGE]

8. An Office Action dated January 4, 2008 was received stating that "Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth by Correction of Inventorship, filed on 2/21/07. The substitute oath or declaration must be filed and signed by Marshall C. Ryan" Ex. F. Note, it is assumed the Office meant the Correction of Inventorship filed on May 19, 2006. The only documents filed on February 21, 2007 was the "Request to Delete Named Persons Who Are Not Inventors of the Invention Now Claimed."

9. On January 9, 2008, I requested Ms. Quinn to telephone Examiner Maust to inquire about the January 4, 2008 Office Action. Ms. Quinn informed me that Examiner Maust advised her that the Application Data Sheet filed on December 27, 2007 in combination with Mr. Ryan's declaration filed on May 19, 2006 had been accepted and that a Response to the January 4, 2008 Office Action would not be required.

10. I instructed Ms. Quinn to continue monitoring the Application for the purpose of filing a Divisional Application of the claims withdrawn in response to a previously entered restriction requirement. On April 23, 2008, a notice of abandonment was entered. Ex. G.

11. Based on the representations by Examiner Maust as identified in Paragraph 9, I reasonably believed that a response to the January 4, 2008 Office Action was not required and that the patent would be granted without further action. As such, the abandonment of the Application was unavoidable.

12. Despite the foregoing, and in response to the January 4 Office Action, Applicant submits herewith a substitute declaration signed by Marshall C. Ryan.

13. All statements made herein of my own knowledge are true, and all statements made herein on information and belief are believed to be true. The statements herein are made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and may jeopardize the validity of the application or any patent issuing thereon.

(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

1. On or around December 27, 2007, I was requested by Attorney Thomas Oppold to telephone Examiner Maust to inquire as to when the patent would be granted on US Patent Application No. 10524086 (the "Application") since the issue fees had been paid on July 9, 2007, over four (4) months prior.
2. During that December 27, 2007 telephone call, Examiner Maust advised me that the delay in the granting of the patent was due to the declaration of Marshall C. Ryan (previously filed on May 19, 2006) not identifying Mr. Ryan's mailing address. Examiner Maust suggested that we could resolve the matter by filing an Application Data Sheet listing Mr. Ryan's mailing address.
3. On December 27, 2007, I assisted Attorney Oppold in filing the Application Data Sheet listing Mr. Ryan's mailing address as had been suggested by Examiner Maust.
4. On January 9, 2008, I was requested by Attorney Oppold to telephone Examiner Maust to inquire about the January 4, 2008 Office Action which stated that a substitute declaration signed by Mr. Ryan must be filed to correct deficiencies set forth in the Correction of Inventorship filed on February 21, 2007. Examiner Maust advised me that the Application Data Sheet filed on December 27, 2007 in combination with the declaration signed by Mr. Ryan filed on May 19, 2006 had been accepted and that a Response to the January 4, 2008 Office Action would not be required. I informed Attorney Oppold of Examiner Maust's statement.
5. All statements made herein of my own knowledge are true, and all statements made herein on information and belief are believed to be true. The statements herein are made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and may jeopardize the validity of the application or any patent issuing thereon.

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 7-10, 13-16 and 18-22, drawn to an apparatus for handling waste fluid, classified in class 141, subclass 65.
- II. Claims 23-25, drawn to a method for disposing of waste fluid, classified in class 141, subclass 7.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process can be practiced by a system that doesn't require first and second sensors electrically coupled to a pump.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

During a telephone conversation with Thomas J. Oppold on 2/21/07 a provisional election was made without traverse to prosecute the invention of Group I, claims 7-10, 13-16 and 18-22. Affirmation of this election must be made by applicant in replying to

this Office action. Claims have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

This application is in condition for allowance except for the presence of claims 23-25 directed to Group II, non-elected without traverse. Accordingly, claims 23-25 have been cancelled.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel Claims 23-25.

The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, teaches an apparatus for handling waste fluid having a holding chamber, separation chamber, pump, first and second electronic level sensors coupled to said pump and microprocessor, as claimed .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy L. Maust whose telephone number is (571) 272-4891. The examiner can normally be reached on Mon. - Thur. 6:30 - 5:00.

The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
